About CCAC

The Climate & Clean Air Coalition (CCAC) is a global partnership of governments, international and non-governmental organizations committed to improve air quality and protect the climate through actions to reduce short-lived climate pollutants like methane.

The Municipal Solid Waste Initiative /Hub of the CCAC is dedicated to reduce methane and black carbon emissions from the waste sector. The Initiative/Hub engages with national governments and municipalities, with private sector and academia, often in regional networks providing information, guidance and expertise on policies and strategies, on organization and technologies, on development and finance of climate-friendly waste management.

Germany is CCAC Partner Country since 2012.

STOP THE LANDFILLING OF (ORGANIC) WASTE!

Wed., 29 September 2021

09:15 Welcome Speeches

09:30 **Country Focus**

CCAC-State-Partner
Jordan

12:30 Break & Videos

14:30 **IN DISCUSSION:**
Compost for
nature-based solutions
in climate-resilient
Cities?

15:30 Break

16:00 **Central and Latin
America Forum**

National & Local
Government Actions
for climate-friendly
Circular Economy

19:00 Wrap-up

Thu., 30 September 2021

09:15 Welcome

09:30 **Africa Forum**

Mitigation Experiences
made in Africa!
Tackling Waste Sector
Challenges

12:45 Break & Videos

14:00 **IN DISCUSSION:**
Voluntary Contributions
or Crowd-Funding
for Waste Projects?

15:15 Break

15:45 **IN DISCUSSION:**
Waste and Methane
in Focus!
Raising NDC Ambitions
and Climate Finance

17:15 Closure
