

## Hybrid Conference 'The Challenge: Combat Global Warming with Waste Sector Actions'

### Latin and Central America Forum: National & Local Government Actions for climate-friendly Circular Economy

Wed., 29.9.2021, 16:00-19:00 CEST - Panel information (green = in Person)

#### Key Note Presentations or Videos in Spanish

##### **Brazil: Developing climate-relevant Waste Projects**

**Carlos Silva Filho**, president of Abrelpe-Brazil & International Solid Waste Association ISWA and **Asa Bergerus-Rensvik**, Swedish Environmental Protection Agency

##### **Argentina: Activities in the Province Corrientes**

Dr. Horacio Ortega, Ministro de Coordinación y Planificación, Provincia de Corrientes and Dr. Eduardo Tassano, Intendente de la Ciudad de Corrientes  
Alejandro Cristiá, Subsecretario de Planificación de Políticas Ambientales Ciudad de Corrientes and **Verena Böhme**, NGO Fundación Manos Verdes

##### **Argentina: Activities in the Capital Buenos Aires**

Clara Muzzio, Environment Ministry Buenos Aires

##### **Chile: National Organic Waste Strategy - Estrategia Nacional de Residuos Orgánicos**

Pablo Fernando Ramirez, Ministry of Environment Chile

##### **Peru: A successful cooperation between local and national level to achieve climate finance with CCAC support**

William Chata, Ministry of Environment Peru and Gerardo Canales/CCAP

##### **Costa Rica IKI Project: Municipal greenhouse gas inventories and mitigation measures at local level**

Sandra Spies, GIZ Costa Rica

##### **Guatemala: National and local governments in waste sector action**

Ciriaco Antonio Urrutia, Ministry of Environment and Natural Resources, NDC Partnership and IPCC Focal Point, Guatemala and **Daira Gomez**, CCAC/CEGESTI, Costa Rica

#### Resource Persons' Introduction

**Lioba Donner**, International Climate Initiative (IKI), Federal Ministry for the Environment, Nature Conservation and Nuclear Safety

Ricardo Cepeda, CCAC/C40 Cities

**Michele Giavini**, Italian Composting and Biogas Association, Italy

Dr. Volker Ludwig, Deutsche Gesellschaft für Abfallwirtschaft DGAW e.V.  
Federico di Penta, McKinsey.org

### **(Draft) Key Questions**

Which are the main factors/approaches for a successful cooperation of national and local level resulting in raised NDC ambitions and larger implementation rate in the waste sector?

How can the examples presented be replicated and implemented at larger scale in this and the next decade to mitigate methane? What are the key issues for that? What are necessary the prerequisites in the countries?

What role can bilateral environment cooperation and climate finance play?

What is the role of the private sector?

What role plays data collection and emission quantification?

### **(Draft) Key Outcome**

Indication of interest to participate in follow-up meetings to develop project ideas / roadmap

---

**Moderation:** Sandra Mazo-Nix, CCAC/UNEP

### Key Questions

Which focus areas, for example organic waste, knowledge exchange, finance/funding, city cooperation, model city development etc. are important to develop the waste sector?

Where are areas for future cooperation and collaboration between the different actors actively involved with Jordan?

### Key Outcome

Ideas for further collaboration of different actors

---

**Moderation:** Anja Schwetje, UBA
