

Options for the Political Phase of the Global Stocktake

Online Seminar

09 March 2023, 1400-1500 CET (1pm to 2pm GMT)

Background

The first Global Stocktake (GST) under the Paris Agreement will be concluded in 2023 with its political phase. This so-called consideration of outputs component will take place during the COP28 climate change conference in November and December 2023. Researchers have developed various approaches to this political phase, laid out in the discussion paper "Options for the political phase of the Global Stocktake" ([available here](#)).

The aim of this online seminar is to discuss options for how to structure the process and its outputs for an ambitious Global Stocktake at COP28.

The online seminar is part of the project "Support for the first Global Stocktake of the Paris Agreement" (umweltbundesamt.de/globalstocktake) implemented by Oeko-Institut, NewClimate Institute, Wuppertal Institute and DLR Projektträger, and commissioned by the German Environmental Agency.

Agenda

Time	Agenda Item
14:00 – 14:05 CET	Welcome and Introductions, Frederik Pischke, German Environment Agency
14:05 – 14:20 CET	Presentation <i>Options for the Political Phase of the Global Stocktake</i> , Lorenz Moosmann, Oeko-Institut
